## **Phenomenology of Life. Meeting the Challenges of the Present-Day World: 84 (Analecta Husserliana)**

Philosophy has been always received or bypassed for its resonance or aloofness with the spirit of the time. Should not philosophy/phenomenology of life be expected to do more to ascertain its validity? Should it not pass the pragmatic test, that is to respond directly to the life-concerns of its time? What is the role of the philosopher and philosophy today? Due to the ever-advancing scientific, technological, social and cultural changes that are shaping human life and the life-world-in-transformation, we are desperately seeking a measure to estimate life's unfolding, a compass to stir the course between Scylla and Charibda to maintain human-hood and creative insight for laying the cornerstones for the unforeseeable unfolding of life dynamisms. It is this challenge which philosophy/phenomenology of life meets with underlying onto-poietic unraveling of the hidden logico concatenations of beingness-in-becoming. The present collection of essays offers contributions to answer this challenge by focusing upon measure, sharing-in-life, intersubjectivity and communication, societal equilibrium, education, and more. It will be of great interest to those working in the fields of Phenomenology, Philosophy, History of Philosophy, and Contemporary Philosophy.
