Wireless and Mobile Network Architectures

Yi-Bing Lin, Imrich Chlamtac

Wireless and Mobile Network Architectures Yi-Bing Lin, Imrich Chlamtac
A comprehensive guide to building wireless and mobile networks and services. Based on advanced wireless and mobile network architectures, Personal Communication Services (PCS) offers the enterprise freedom of communication through mobility. This book gives network engineers and managers a window on the world of wireless and mobile networks, from the enabling technologies and protocols to creating and managing mobile services. Lin and Chlamtac use a unique sustained example approach to teach you how PCS concepts apply to real network operation. For example, they use location update to illustrate concepts in chapters on network signaling,
- Mobility management for different systems
- Wireless Application Protocol Network signaling for IS-41-based systems, PACS, and GSM
- Roaming procedures and international roaming
- Operational management
- VoIP service for mobile networks
- Mobile number portability
- GPRS
- Third generation (3G) mobile systems
- Wireless enterprise networks
- Wireless Local Loop
- And much more

From reader reviews:

James Bass:

Why? Because this Wireless and Mobile Network Architectures is an unordinary book that the inside of the publication waiting for you to snap this but latter it will shock you with the secret that inside. Reading this book alongside it was fantastic author who have write the book in such awesome way makes the content within easier to understand, entertaining way but still convey the meaning entirely. So , it is good for you because of not hesitating having this any more or you going to regret it. This amazing book will give you a lot of benefits than the other book possess such as help improving your expertise and your critical thinking means. So , still want to postpone having that book? If I were you I will go to the reserve store hurriedly.

Gary Gonzales:

Playing with family in a very park, coming to see the sea world or hanging out with close friends is thing that usually you will have done when you have spare time, and then why you don't try thing that really opposite from that. One particular activity that make you not experience tired but still relaxing, trilling like on roller coaster you already been ride on and with addition details. Even you love Wireless and Mobile Network Architectures, you could enjoy both. It is excellent combination right, you still would like to miss it? What kind of hang type is it? Oh can occur its mind hangout fellas. What? Still don't buy it, oh come on its identified as reading friends.

Harry Blalock:

Are you kind of occupied person, only have 10 as well as 15 minute in your day to upgrading your mind expertise or thinking skill even analytical thinking? Then you are having problem with the book compared to can satisfy your short time to read it because pretty much everything time you only find publication that need more time to be study. Wireless and Mobile Network Architectures can be your answer since it can be read by anyone who have those short spare time problems.

Na Urquhart:

In this period of time globalization it is important to someone to receive information. The information will make a professional understand the condition of the world. The condition of the world makes the information much easier to share. You can find a lot of referrals to get information example: internet, classifieds, book, and soon. You will see that now, a lot of publisher which print many kinds of book. Typically the book that recommended to your account is Wireless and Mobile Network Architectures this reserve consist a lot of the information with the condition of this world now. This particular book was represented how do the world has grown up. The vocabulary styles that writer make usage of to explain it is easy to understand. The particular writer made some investigation when he makes this book. That's why this book acceptable all of you.
