A Crystal Age W. H. Hudson

**W. H. Hudson's trailblazing story of a pastoral utopia that harbors a dark secret**

After a landslide, Smith awakens groggy and confused. The landscape around him has changed dramatically. He wanders through the countryside, searching for any semblance of civilization, until a family takes him in. As he recounts what happened to him and where he came from, it dawns on Smith that he has somehow left his own world behind and awoken somewhere entirely new.

What Smith finds is a gorgeous utopian vision of a peaceful world made real. Humans live in accordance with nature, respectful of the land and animals, untethered by technology. The cause of this new order is an alternate hierarchy of humanity that Smith must learn to adhere to—or face the consequences.

As he integrates into this foreign society, Smith finds himself falling for the daughter of the house. But when he tries to tell her, he realizes the most important difference between his former world and his new one: Romantic love no longer exists.
