Inspiring Dialogue helps new English teachers make dialogic teaching practices a central part of their development as teachers, while also supporting veteran teachers who would like new ideas for inspiring talk in their classrooms. Chapter by chapter, the book follows novice teachers as they build a repertoire of practices for planning for, carrying out, and assessing their efforts at dialogic teaching across the secondary English curriculum. The text also includes a section to support dialogic teacher learning communities through video study and discourse analysis. Providing a thorough discussion of the benefits of dialogic curriculum in meeting the objectives of the Common Core State Standards, this book with its companion website is an ideal resource for teacher development.

Book Features:

- Dialogic tools for step-by-step planning within a lesson, over the course of a unit, or during an entire academic year.
- A user-friendly, interactive layout designed for new teachers who are pressed for time.
- Classroom examples addressing the challenges English teachers may face in stimulating rich learning talk in an era of standardization.
- A companion website with additional examples, activities, and course material.
