International Relations Theory and Ecological Thought: Towards a Synthesis (Environmental Politics)

Eric Laferrière, Peter J. Stoett

Ecological crises have never been higher on the international political agenda. However, ecological thought and international relations theory have developed as separate disciplines. This ground-breaking study looks at the relationship between ecological thought and international relations theory arguing that there are shared concerns: peace, co-operation and security. The authors ask what ecological crisis can teach IR theorists as well as what ecological perspectives have been adopted by governments and international NGOs.
