Original Thinking: A Radical Revisioning of Time, Humanity, and Nature Glenn Aparicio Parry

In *Original Thinking*, Glenn Aparicio Parry delves into the evolution of Western thought to recover the living roots of wisdom that can correct the imbalances in our modern worldview. Inspired by groundbreaking dialogues that the author organized between Native American elders and leading-edge Western scientists to explore the underlying principles of the cosmos, this book offers a radical revisioning of how we think. Asking questions such as, Is it possible to come up with an original thought?, What does it mean to be human?, and How has our thinking created our world today?, Parry challenges us to consider many of our most basic assumptions. To think originally--as in thinking new thoughts that have never been thought or said before--is according to Parry, largely an illusion. So, too, is the idea of linear human progress. Most of us have traveled far from our ancestral lands, and in so doing, lost connection with place, the origin of our consciousness.

Original Thinking offers a radical revisioning of how we think and what it means to be human. It invites us to reintegrate our hearts with our heads and to expand our self-imposed narrowing of consciousness. In doing so we reconnect with the living, original source--nature and her interconnected elements and cycles--and embrace the communion of old and new, rational and intuitive, and masculine and feminine. Ultimately, Parry shows us how to create the tapestry of truly original thinking and to restore thought as a blessing, as a whole and complete transmission from Spirit.

Contents

PART ONE (ORIGIN): Is it possible to come up with an original thought?

Neil Espinoza:

As a student exactly feel bored to help reading. If their teacher questioned them to go to the library as well as to make summary for some reserve, they are complained. Just very little students that has reading's heart and soul or real their leisure activity. They just do what the professor want, like asked to go to the library. They go to presently there but nothing reading critically. Any students feel that examining is not important, boring along with can't see colorful photographs on there. Yeah, it is to become complicated. Book is very important in your case. As we know that on this era, many ways to get whatever we want. Likewise word

says, many ways to reach Chinese's country. Therefore this Original Thinking: A Radical Revisioning of Time, Humanity, and Nature can make you experience more interested to read.
