A First Course in Modular Forms (Graduate Texts in Mathematics)

Fred Diamond, Jerry Shurman

A First Course in Modular Forms (Graduate Texts in Mathematics) Fred Diamond, Jerry Shurman

This book introduces the theory of modular forms, from which all rational elliptic curves arise, with an eye toward the Modularity Theorem. Discussion covers elliptic curves as complex tori and as algebraic curves; modular curves as Riemann surfaces and as algebraic curves; Hecke operators and Atkin-Lehner theory; Hecke eigenforms and their arithmetic properties; the Jacobians of modular curves and the Abelian varieties associated to Hecke eigenforms. As it presents these ideas, the book states the Modularity Theorem in various forms, relating them to each other and touching on their applications to number theory. The authors assume no background in algebraic number theory and algebraic geometry. Exercises are included.

From reader reviews:

Beverly Sands:

The book A First Course in Modular Forms (Graduate Texts in Mathematics) make one feel enjoy for your spare time. You may use to make your capable more increase. Book can to get your best friend when you getting anxiety or having big problem together with your subject. If you can make studying a book A First Course in Modular Forms (Graduate Texts in Mathematics) to be your habit, you can get much more advantages, like add your own personal capable, increase your knowledge about a number of or all subjects. You are able to know everything if you like open up and read a publication A First Course in Modular Forms (Graduate Texts in Mathematics). Kinds of book are several. It means that, science e-book or encyclopedia or some others. So , how do you think about this book?

Charlie Smith:

Now a day people who Living in the era wherever everything reachable by connect to the internet and the resources in it can be true or not demand people to be aware of each facts they get. How people have to be smart in getting any information nowadays? Of course the answer is reading a book. Studying a book can help individuals out of this uncertainty Information particularly this A First Course in Modular Forms (Graduate Texts in Mathematics) book because this book offers you rich information and knowledge. Of course the data in this book hundred pct guarantees there is no doubt in it you may already know.

Robert Brown:

The reason? Because this A First Course in Modular Forms (Graduate Texts in Mathematics) is an unordinary book that the inside of the publication waiting for you to snap this but latter it will shock you with the secret it inside. Reading this book close to it was fantastic author who have write the book in such incredible way makes the content on the inside easier to understand, entertaining approach but still convey the meaning totally. So , it is good for you because of not hesitating having this any longer or you going to regret it. This excellent book will give you a lot of rewards than the other book get such as help improving your skill and your critical thinking approach. So , still want to delay having that book? If I were being you I will go to the e-book store hurriedly.

Mary Haskell:

Can you one of the book lovers? If yes, do you ever feeling doubt when you are in the book store? Attempt to pick one book that you find out the inside because don't judge book by its include may doesn't work this is difficult job because you are scared that the inside maybe not seeing that fantastic as in the outside look likes. Maybe you answer is usually A First Course in Modular Forms (Graduate Texts in Mathematics) why because the excellent cover that make you consider about the content will not disappoint you actually. The inside or content is usually fantastic as the outside or maybe cover. Your reading 6th sense will directly assist you to pick up this book.
