Commercial sexual exploitation and sex trafficking of minors in the United States are frequently overlooked, misunderstood, and unaddressed domestic problems. In the past decade, they have received increasing attention from advocates, the media, academics, and policy makers. However, much of this attention has focused internationally. This international focus has overshadowed the reality that commercial sexual exploitation and sex trafficking of minors also occur every day within the United States. Commercial sexual exploitation and sex trafficking of minors not only are illegal activities, but also result in immediate and long-term physical, mental, and emotional harm to victims and survivors. A nation that is unaware of these problems or disengaged from solving them unwittingly contributes to the ongoing abuse of minors and all but ensures that these crimes will remain marginalized and misunderstood.

The 2013 Institute of Medicine and the National Research Council report *Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States* increases awareness and understanding of the crucial problem of commercial sexual exploitation and sex trafficking of minors in the United States. By examining emerging strategies for preventing and identifying these crimes, for assisting and supporting victims and survivors, and for addressing exploiters and traffickers, that report offers a path forward through recommendations designed to increase awareness and understanding and to support efforts to prevent, identify, and respond to these crimes.

Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States: A Guide for Providers of Victim and Support Services offers a more concise and focused perspective on the problem and emerging solutions for providers of victim and support services for children and adolescents. These service providers include policy makers, leaders, practitioners, organizations, and programs at the local, state, and federal levels. This guide will be a valuable resource for them, and for child welfare and child protective services, other agencies and programs within the state and federal governments (e.g., the U.S. Department of Justice's Office for Victims of Crime), and nongovernmental organizations.
