This fully updated third edition of Rob Barnes' classic text blends practical ideas with sound principles of art education. Teachers and student teachers will find a range of ideas and tried and tested classroom examples; whilst for those looking for firm principles of art teaching and 'best practice' this book presents many important issues in art education with clarity and insight.

Based on first-hand experience of teaching children, this text uses many examples from early years and primary school contexts, and tackles essential topics with realism and imagination such as:

- developing skills through using media
- how children draw
- encouraging artistic confidence in children
- producing original artwork and making use of digital imagery

Rob Barnes' unique approach encourages teachers to develop and think about art as part of a rich curriculum of learning, highlighting how it shouldn't be taught in isolation but with purposeful links to other areas of the curriculum.
