The National Security of Small States in a Changing World (BESA Studies in International Security)

The first part of this book is primarily devoted to analysing the impact of the system of international relations on the fortunes of small states. The second part discusses the question 'what changes in the national strategy of small states are necessary in view of the new international system?' The authors of this volume come from various parts of the world and espouse differing outlooks. Nevertheless, they were able to coalesce around a similar theme in an effort to contribute to the international understanding of the special challenges that confront the world's small states.
