Advances in Virus Research: 89

Advances in Virus Research: 89

The first review series in virology and published since 1953, *Advances in Virus Research* covers a diverse range of in-depth reviews, providing a valuable overview of the field. The series of eclectic volumes are valuable resources to virologists, microbiologists, immunologists, molecular biologists, pathologists, and plant researchers.

Volume 89 features articles on topics including plant-based vaccines, transmission of arthropod-borne viruses by mosquitoes, arboviruses in domestic and wild animals, and more.

- Contributions from leading authorities
- Comprehensive reviews for general and specialist use
- First and longest-running review series in virology
