John W. Roulac

What happened to hemp? Within these pages, John Roulac thoroughly examines this question as society looks to solutions for the toxic hangover from the last half-century's fossil fuel binge. The question has never been more relevant. Worldwide demand for hemp products is mushrooming, spawning a new breed of entrepreneurs who are discovering a vital marketplace. Twenty-three of these entrepreneurs are profiled here. This volume makes use of history, business and agricultural analysis and common sense in making its case. 90 illustrations.
