Helene Cixous is undoubtedly one of the most brilliant and innovative contemporary thinkers. Published here in English for the first time *Helene Cixous, Rootprints* is an ideal introduction to Cixous's theory and her fiction, tracing her development as a writer and intellectual whose remarkable prespicacity and electrifying poetic force are known world-wide.

Unprecedented in its form and content this collection breaks new ground in the theory and practice of auto/biography. Cixous's creative reflections on the past provide occasion for scintillating forays into the future.

The text includes:

- * an extended interview between Cixous and Calle-Gruber, exploring Cixous's creative and intellectual processes
- * a revealing collection of photographs taken from Cixous's family album, set against a poetic reflection by the author
- * selections from Cixous's private notebooks
- * a contribution by Jacques Derrida
- * original 'thing-pieces' by Calle-Gruber.
