La conciencia viviente (Ciencia y Tecnología) (Spanish Edition)

José Luis Díaz

La conciencia viviente (Ciencia y Tecnología) (Spanish Edition) José Luis Díaz

El propósito de esta obra es dar información a especialistas y al lector común sobre la mente consciente, para lo cual plantea los temas que relacionan la ciencia y la filosofía en el binomio mente-cuerpo. De esta forma surgen diversos tratamientos de tres dificultades generales de la conciencia: la relación de la conciencia con la actividad cerebral y corporal, el establecimiento de un modelo adecuado para su mejor comprensión y el de su estudio empírico. Esto nos lleva a un campo interdisciplinario muy amplio entre diversas ciencias biológicas, sociales y humanísticas como son las neurociencias, las ciencias de la conducta, la psicología cognitiva, la psiquiatría, la filosofía de la mente, la teoría literaria, las ciencias de la complejidad y algunas tradiciones relevantes al tema, como el budismo.
