Tired of commuting? Fed up with your boss? Bored with your job? There is a solution: Start living and doing what you want to do. Lie in a hammock or on a beach, swing your golf club, or hit the open road. Get control of your life, become financially independent, and RETIRE EARLY. If you want to retire early - before age 65 - you are not alone. In a survey of workers ages 30 to 50, more than half plan to retire at 60 or younger and only 6 percent plan to work past 65.

There are three things you need to do to retire early: 1) Manage your expenses and reduce or eliminate debt, 2) accumulate capital, and 3) save and invest wisely. It is easy, but requires patience and self-control, and with the guidance of this new book you will be on your way to achieving this goal.

You will learn how to take control of your life, set realistic long-term goals, choose appropriate lifestyle trade-offs, and learn effective savings techniques and simple investing strategies. You will learn how to calculate how much you need to retire early, get the most from your investment portfolio, reduce your taxes, use retirement planning tools, increase your income while retired, reduce living expenses, deal with inflation and deflation, and calculate social security and pension payments. This book will be your road map to turn the dream of early retirement into reality.
