Controversies in Competitive Intelligence: The Enduring Issues

Controversies in Competitive Intelligence: The Enduring Issues

Chosen for their clear, direct relevance to scholars and practitioners in the volatile field of competitive intelligence, the 24 issues evaluated here represent the cutting edge of CI's most pressing concerns. Current, scholarly, pragmatic, and among the first of its kind, this book presents the heart of the field in a way that even the relatively uninitiated can grasp and quickly apply.

The authors cover the latest technological advances and their relation to the tools most valued by CI professionals. They also show that despite its enormous range of possibilities, CI has limits. Navigating the ever-changing organizational and marketplace environments is difficult. A key debate involves what should and shouldn't be done to maximize the beneficial power of CI. Fleisher, Blenkhorn, and the book's contributors present the crucial points of this debate. This book is perfect for practitioners seeking guidance, but also as a supplemental text for students in such courses as marketing strategy and planning, business-to-business marketing, and competitive intelligence itself.

Betty Serrano:

Now a day people that Living in the era wherever everything reachable by talk with the internet and the resources within it can be true or not demand people to be aware of each info they get. How individuals to be smart in receiving any information nowadays? Of course the correct answer is reading a book. Reading a book can help folks out of this uncertainty Information especially this *Controversies in Competitive Intelligence: The Enduring Issues* book since this book offers you rich data and knowledge. Of course the data in this book hundred per-cent guarantees there is no doubt in it everbody knows.

Antonio Ritchie:

As a pupil exactly feel bored to reading. If their teacher expected them to go to the library as well as to make summary for some e-book, they are complained. Just very little students that has reading's internal or real their leisure activity. They just do what the professor want, like asked to the library. They go to there but nothing reading significantly. Any students feel that reading is not important, boring and also can't see colorful images on there. Yeah, it is to become complicated. Book is very important for yourself. As we know that on this time, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore , this *Controversies in Competitive Intelligence: The Enduring Issues* can make you sense more interested to read.
