The Weibull Distribution: A Handbook

Horst Rinne

The Weibull Distribution: A Handbook Horst Rinne

The Most Comprehensive Book on the Subject

Chronicles the Development of the Weibull Distribution in Statistical Theory and Applied Statistics

Exploring one of the most important distributions in statistics, **The Weibull Distribution: A Handbook** focuses on its origin, statistical properties, and related distributions. The book also presents various approaches to estimate the parameters of the Weibull distribution under all possible situations of sampling data as well as approaches to parameter and goodness-of-fit testing.

Describes the Statistical Methods, Concepts, Theories, and Applications of This Distribution

Compiling findings from dozens of scientific journals and hundreds of research papers, the author first gives a careful and thorough mathematical description of the Weibull distribution and all of its features. He then deals with Weibull analysis, using classical and Bayesian approaches along with graphical and linear maximum likelihood techniques to estimate the three Weibull parameters. The author also explores the inference of Weibull processes, Weibull parameter testing, and different types of goodness-of-fit tests and methods.

Successfully Apply the Weibull Model

By using inferential procedures for estimating, testing, forecasting, and simulating data, this self-contained, detailed handbook shows how to solve statistical life science and engineering problems.

From reader reviews:

Mark Hart:

Do you have favorite book? Should you have, what is your favorite's book? Reserve is very important thing for us to be aware of everything in the world. Each e-book has different aim or even goal; it means that book has different type. Some people truly feel enjoy to spend their time and energy to read a book. These are reading whatever they acquire because their hobby is usually reading a book. Why not the person who don't like studying a book? Sometime, man or woman feel need book whenever they found difficult problem or perhaps exercise. Well, probably you'll have this The Weibull Distribution: A Handbook.

Hazel Reinoso:

Book is to be different per grade. Book for children until eventually adult are different content. As we know that book is very important for people. The book The Weibull Distribution: A Handbook was making you to know about other know-how and of course you can take more information. It is very advantages for you. The book The Weibull Distribution: A Handbook is not only giving you considerably more new information but also being your friend when you really feel bored. You can spend your spend time to read your reserve. Try to make relationship together with the book The Weibull Distribution: A Handbook. You never feel lose out for everything in the event you read some books.

April Harry:

Reading a book can be one of a lot of task that everyone in the world loves. Do you like reading book and so. There are a lot of reasons why people love it. First reading a publication will give you a lot of new data. When you read a book you will get new information mainly because book is one of many ways to share the information as well as their idea. Second, reading through a book will make you more imaginative. When you examining a book especially fiction book the author will bring you to imagine the story how the character types do it anything. Third, you are able to share your knowledge to other folks. When you read this The Weibull Distribution: A Handbook, it is possible to tells your family, friends and also soon about yours reserve. Your knowledge can inspire different ones, make them reading a book.

Mildred Shaw:

In this age globalization it is important to someone to acquire information. The information will make a professional understand the condition of the world. The healthiness of the world makes the information much easier to share. You can find a lot of recommendations to get information example: internet, classifieds, book, and soon. You will observe that now, a lot of publisher in which print many kinds of book. The actual book that recommended for you is The Weibull Distribution: A Handbook this book consist a lot of the information of the condition of this world now. This particular book was represented just how can the world has grown up. The vocabulary styles that writer make usage of to explain it is easy to understand. Typically the writer made some exploration when he makes this book. This is why this book acceptable all of you.
