Zinc Ions in Ear, Nose, and Throat Work A. R. Friel

Zinc Ions in Ear, Nose, and Throat Work presents the method of effectively treating otorrhea. This three-chapter text discusses the means of applying electric current to the infected area to introduce zinc ions into the tissue. It addresses the progress made with the treatment and the use of this in treating maxillary and frontal sinusitis.

Some of the topics covered in the book are the dissociation of atoms into ions; description of a simple voltaic cell; features and chemical reactions in an electrolytic cell; and source and regulation of the electric current. The next chapter provides the basic procedures of using the zinc ion treatment and the clinical application of zinc ionization and zinc electrolysis in chronic otorrhea. An evaluation of tympanic sepsis treatment and the analysis of tympanic conditions with rhinitis and tonsillitis are presented. The last chapter is devoted to zinc ionization in the post-operative treatment of cerebral abscess.

The book can provide useful information to doctors, students, and researchers.
